Inclement Weather Refund Policy:

Splashville will close for inclement weather when thunder or lightening is detected inside 10 miles of the facility. If inclement weather exists prior to the opening of the pool, the pool shall remain closed until the bad weather passes. Should the threatening weather come after opening, all swimmers will be cleared from the pool and seek temporary shelter until swimming can resume. Swimmers will receive a rain delay pass to re-enter the facility once the weather clears. Threatening weather conditions lasting longer than (1) one hour may warrant the closing of the pool for the day. If the pool closes for the remainder of the day, then the rain delay pass will expire in two weeks. If the pool re-opens on the same day, then the rain delay pass will expire upon closing on the same day. The City of Stephenville will not issue cash refunds.

Water Quality Refund Policy:

All visitors to Splashville must abide by all the rules, regulations and City Ordinances in order to continue a safe and healthy environment (see Department of Health Safety Recommendations for more information). If at any time you feel or see anything that disrupts a safe and healthy environment, please contact us immediately. Splashville may close without notice for chemical adjustments to the pool. Chemical adjustments may be needed due to pH/Chlorine levels, or foreign objects in the pool. We apologize for any inconvenience this may cause and a day pass will be issued upon request. The City of Stephenville will not issue cash refunds.

Disclaimer: The City of Stephenville reserves the right to close the pool if usage falls below a reasonable number of guests.

Department of Health Safety Recommendations!!

Three Steps for All Swimmers

Keep germs from causing illnesses (RWIs) at the pool:

- **Please** don't swim when you have diarrhea. You can spread germs in the water and make other people sick.
- **Please** don't swallow the pool water. Avoid getting water in your mouth.
- **Please** practice good hygiene. Shower with soap before swimming and wash your hands after using the toilet or changing diapers. Germs on your body end up in the water.

Three Steps for Parents of Young Kids

Keep germs out of the pool:

- **Please** take your kids on bathroom breaks and check diapers often.
Waiting to hear "I have to go" may mean that it's too late.
- **Please** change diapers in a bathroom or a diaper-changing area and not at poolside. Germs can spread in and around the pool.
- **Please** wash your child thoroughly (especially the rear end) with soap and water before swimming. Invisible amounts of fecal matter can end up in the pool.
